Summary — Frontend Developer with 3 years of experience building web applications. Skilled in HTML, CSS, JavaScript, Angular. Focused on writing clean, efficient code and ensuring good performance and maintainability. Committed to continuous learning and improving design and coding practices.

Skills

Frameworks Angular.
Languages HTML5, CSS3, SCSS, JavaScript, TypeScript.
Familiar with React, Figma, SEO, Jira, AI tools.
CMS: WordPress

UI Libraries: Angular Materials, Bootstrap, Tailwind, NPM, RWD
Miscallneous Git/GitHub/Bitbucket, JIRA, Postman, Swagger, VS Code, Cursor ai.

Experience

Freelance Web Developer **Jan 2026 – Till Date**

- Collaborating with a small team to design, develop and maintain WordPress website for clients.
- Working on website revamping and restructuring (site remapping) to improve usability and navigation.
- Using Elementor to design and customize responsive page layouts and implement new themes.
- Customizing Wordpress themes and plugins to meet client requirement and enhance site functionality.

Utthunga **Mar 2025 – July 2025**

- Collaborated with the development team to build dynamic web applications using Angular, Bootstrap, HTML, CSS, and JavaScript.
- Followed coding standards and best practices to ensure application quality and optimize performance.
- Utilized Git for version control to manage code changes throughout the development lifecycle.
- Actively participated in sprint planning, estimations, stories/tasks updating, retrospectives, sprint reviews.

TCS **June 2022 – Feb 2024**

- Utilized Angular, HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Built modular UI components using React with JavaScript and Tailwind CSS.
- Developed a React application leveraging React Hooks, React Router, JSX, Context API, & reusable components.
- Developed custom web applications, resulting in tailored solutions for client needs.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.
- Leveraging the Angular Material Library to design consistent, visually appealing web applications and pages for Angular projects

Diverse Lynx India Pvt Ltd **Jun 2021 – Jun 2022**

- Coded using Angular, HTML, CSS and JavaScript to develop features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Collaborated with back-end developers to improve website functionality and integrate new features.
- Optimized front-end performance by 20% by refining HTML/CSS and Angular codebases, following best practice standards.

Sun Plus Software **Apr 2019 – Apr 2021**

- Boosted application efficiency through proficient use of JavaScript frameworks like Angular for faster rendering and improved interactivity.
- Implemented new features requested by clients while adhering to established coding standards to maintain consistency across projects.
- Collaborated with the design team to convert mockups into fully functional web pages, ensuring seamless user interfaces.
- Maximized website performance by identifying inefficiencies in JavaScript, CSS, and HTML code, then making targeted adjustments.
- Worked closely alongside UX/UI designers to create seamless and visually appealing user interfaces by translating wireframes into functional HTML, CSS, and JavaScript code.
- Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms. Produced websites compatible with multiple browsers.
- Optimized front-end performance by 20% by refining HTML/CSS and Angular codebases, following best practice standards.

Education

Visvesvaraya Technological University **2014 -2018**
Bachelor of Engineering in Computer Science

Certification

- Generative AI Mastermind
- Python using AI
